Jarred Ward

EXPERIENCE

Company: Log(N) Pacific

Title: Vulnerability Management Analyst (Intern)

January 2026 - Present

- Executed secure configurations and compliance audits (DISA STIG) with Tenable.
- Performed vulnerability assessments and risk prioritization across Windows and Linux environments.
- Reduced critical, high, and medium vulnerabilities by 100%, 89%, and 83%, respectively, through vulnerability scanning, reporting, and PowerShell remediation.
- Automated remediation processes and DISA STIG implementations using PowerShell.

Title: Security Analyst (Intern)

July 2025 – January 2026

- Created Microsoft Sentinel dashboards to monitor logon failures and malicious traffic.
- Queried SIEM and EDR logs using KQL to support threat detection and investigations.
- Designed, tested, and published advanced threat hunting scenarios for incident response tabletop exercises.
- Performed threat hunting with EDR, detecting IoCs from brute force attacks, data exfiltration, and ransomware.
- Developed custom detection rules in Microsoft Defender for Endpoint to automate isolation and investigation of compromised systems.
- Reduced brute force incidents by 100% by implementing inbound NSG/firewall rules to limit internet exposure.

Company: Maryland Department of Public Safety and Correctional Services

Title: Tactical Commander

May 2017 – May 2025

- Applied policies, procedures, and regulatory requirements to reduce operational risk and maintain compliance.
- Developed risk-based incident plans with defined controls, responsibilities, and escalation paths.
- Trained officers on emergency protocols, strengthening policy adherence, readiness, and response consistency.

PROJECTS

Title: Enterprise Vulnerability Management and Remediation Program

Source: github.com/ jarredward1/vulnerability-management-program

Technologies, frameworks, and methods used: Tenable, Microsoft Azure, Vulnerability Assessment, Vulnerability Prioritization, Windows Server, Linux, PowerShell, Bash

Title: PCI DSS Compliance Audit

Source: github.com/ jarredward1/cybersecurity-risk-assessment

Technologies, frameworks, and methods used: PCI DSS, SAQ D for Merchants, NIST SP 800-53, NIST Risk Management Framework, Merchant-Level Determination, Data-Flow Mapping, Control Assessment, Risk Analysis, Remediation Planning

CERTIFICATIONS

CompTIA Security+

ISO 27001 Lead Auditor

Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)

CISSP (Expected December 2026)

EDUCATION

A.S. Information Technology (GPA: 4.0)

Full Sail University

B.S. Cybersecurity (GPA: 4.0)

Full Sail University
